## Prayer Partner Banquet

Our Prayer Partner Banquet  
will be held

Saturday, February 12, 2022

11:30 AM

Fellowship Hall

Our speaker will be  
Emily Jordan Moore.

Please get your Prayer Partner  
sheets in to Miss Susan by  
**Sunday January 23, 2022**

Pat & Meghan are Prayer Partners

## 2022 Calendars For Sale

**Only \$7.00 each! See Miss Susan**

## Pat Hurley Visit

Thank you to Pat Hurley for sharing with our  
Kids Klub and GLOW about your job in the  
North Carolina House of Representatives.  
We learned a lot!

## Asheboro Friends Prayer List January 9, 2022

### Members

Becky Boone  
Linda Brooks  
Carol Bullins  
Dora Clodfelter  
Jackie & Pat Cole  
Ava Grace Fogleman  
Harry Hudson  
Carolyn Neely  
Fred Ownsbey  
Lois Richardson  
Barbara West  
Danny West  
Jan Winslow

### Hospitals & Nursing Homes

Brookdale:

Bryan Bowman  
Pat Rutherford

Friends Homes:

Billy Britt

Sandy Ridge Memory Care:  
Linda Moody

## January Prayer Focus: Living Water

The need for clean drinking water is universal. Water keeps us and much of the planet alive. While it is easy for many of us to turn on a faucet or tap and fill up our glass or pitcher, many people do not have that luxury.

In many parts of Kenya people only have access to water if they walk to where it is and carry it back. This is a daily ritual, as water is heavy. The water they return with is often not clean for drinking. It can have a number of water-borne diseases that can cause serious illness and death. Before it can be consumed it has to be treated or boiled. Boiling uses precious resources and costs money. Other treatments are costly as well. Buying clean water adds more cost than many people can afford.

People who live in some of the drier regions of Kenya (like Turkana, Samburu, and Maasai Mara) have the added strain of water scarcity. In these areas the water scarcity is doubly cruel because the peoples living there rely on animal herding for a livelihood—and animals require water, also.

Over many years, Friends United Meeting has sponsored a variety of water-related projects to serve those who do not have access to good water. These projects have included drilling bore-holes, as well as installing pumps, piping, and tanks to increase accessibility to water in arid regions.

In addition, biosand water filtration projects have served many communities, as well as providing some income generation for a few groups who have learned how to produce and sell the water filters. Del and Suzanne Livingston were a major force in training and project leadership for these filters in East Africa and dozens of other countries around the world. Sadly, in 2018 Suzanne developed a brain tumor and has been unable to travel to Kenya. Del still works with development projects in Kenya when he is able. Thanks to the Livingstons and FUM, there are working biosand water filters in many Friends locations, like Friends Theological College and Lugulu Friends Mission Hospital. These get used every day and make a difference.

Other Friends have picked up this ministry. Vincent Sinteria is a member of Kisumu Friends Church. He works in Kisumu, but is from the Maasai region around Narok, several hours away from Kisumu. This area has been hit with extended drought and the Maasai herdsman and their families have been suffering. Vincent travels to Narok and surrounding areas to help teach Friends how to build these filters. The filters provide a highly useful service in those communities, as they allow whatever water can be found to become safe and useable. The Friends churches in the Narok region of Nairobi Yearly Meeting reach out to their surrounding community with these filters.

Currently, Vincent is planning another water filter training in February of 2022. He uses his weekends and leave time to help his people. He provides follow-up after the training and helps Maasai Friends reach their neighboring villages with the Good News. The reality of clean water helps make the message of the Living Water come to life in very real ways.

How you can pray:

- Pray for Kenyans in these water-challenged regions.
- Pray for the conflicts connected to water scarcity. No one should have to fight to have water.
- Pray that there will be ways for our FUM Turkana and Samburu missions to reach out to those who suffer from a lack of water. Might the ministry of clean water be a cool, refreshing, and healthful way to help others know about Christ?
- Pray that the droughts in many regions of Kenya will lessen. May water be available to all.
- Pray that Kenyan Friends see this as a way to help their neighbors. May clean water abound.

## Hospice Volunteers Needed

Hospice of Randolph needs the help of your church and your church family.

As you can see below we have an upcoming training for new volunteers with our orientation set for Tuesday, January 11th, at 2:00 pm.

After losing several volunteers during COVID-19 by those stepping away while our department was on hold or due to their own health concerns, we are working to rebuild and recruit new patient/family volunteers to meet the growing needs of our organization.

We are asking our area churches to help promote this through their upcoming e-newsletters or emails that you may send out to your congregation.

This is a special mission that you & your church can be part of as we all move into a new normal for a new year.

We appreciate your assistance with getting the word out! We are very grateful for any help you can give our non-profit organization to address this important community need.

# SAVE THE DATE

## Volunteer Orientation Session

January 11 | 2 - 4 p.m.

## Volunteer Training

January 12
